

Paramedical Skin Revision
Home Prescriptives

DMK
Danné Montague-King®

Remove.

Dead skin cell build-up which leads to the appearance of dry skin, fine lines and skin discoloration.

Rebuild.

The remaining living cells by providing protein, amino acids and nutrients enabling the cells to live longer and healthier.

OUR REVOLUTIONARY CONCEPT

Aims to match an individual's biochemistry
with the appropriate skin therapy.

Protect.

The skin from the sun, free radicals, glycosylation and other environmental factors.

Maintain.

Enabling the skin to function optimally with appropriate home prescriptives.

Celebrating over **40** years of success

1970's Began his breakthrough discoveries of Enzyme therapy, Vitamin C therapy and Trans-epidermal delivery crèmes.

1980's Developed DMK concept of Remove, Rebuild, Protect, Maintain. Created natural approaches to treat hyperpigmentation.

1990's Developed treatments for Glycosylation, formulated Biofreeze™ pain gel therapy.

2000's Developed DMK Cosmetics Foundation – the first silicone based corrective makeup.

2010 Dannié is recognized by the AIA as a "Legend of Aesthetics".

2012 Launched award winning DMK Acu System – range of acne products containing no Benzoyl Peroxide, Parabens or Sulfates.

2013 For his 70th birthday, launches DMK Limited TransGenesis and is simultaneously awarded the Global Ambassador Award by Harvey Milk Foundation.

2016 Expands the DMK Limited to become The Ultimate Age Management Skincare™, a luxury retail range for which a significant portion of all proceeds will be donated to support the Harvey Milk Foundation.

DMK Founder - Danné Montague-King

A pioneer in his industry. Danné has seen the depths of depression associated with poorly functioning skin. In fact his everlasting passion was born from his dissatisfaction with his own acne as a teen. Many times he has shared the story of how his parents would take him to lavish events where he would find a dark corner to hide away in, ashamed of this blemished skin. Not understanding the condition completely, and after failed attempts from top US dermatologists to cure his acne, Danné took things into his own hands and desperate for a cure, became his own guinea pig. Starting his career in the 60's with many trials and tribulations. It wasn't until Danné met his muse, the Maybelline heiress Evelyn Williams, in the 70's that Danné finally made his first true breakthrough with his now world renowned treatment protocols that incorporate Enzyme and Vitamin C therapies.

That's all it took to spark what would be decades of developing what is now known as the DMK Skin Revision™ Treatments and DMK Skincare™ Home Prescriptives. These treatments and products are currently offered in more than 30 countries worldwide and growing. For nearly 50 years Danné has dedicated himself to elevating the professional esthetician and in so doing becoming the embodiment of his own motto: Rebuilding Skin, Rebuilding Lives™.

“ There are no secret formulas, no special techniques from abroad and no miracle scientific breakthroughs that alleviate all skin problems including ageing. There are only the dictates of our body's own chemistry, and we must match that chemistry as closely as possible to provide the maximum ideal environment for healthy skin. ”
—Danné Montague-King

Acu-Klenz

Acu-Klenz is a deep-cleansing gel containing salicylic acid. It's deep penetrating action helps keep pores clean while penetrating and drying up existing acne.

Acne Wash

A superior cleansing solution that can inhibit and eliminate acne. It is gentle enough to use daily, and is an excellent preventative for those skins affected by this damaging condition. *Acne Wash* contains 2.5% Benzoyl Peroxide which helps control acne causing bacteria by minimizing unwanted oils, dirt and dead skin cells.

Deep Pore

A non-alkaline cleanser with White Oak Bark, Yucca and Aloe extracts that remove make-up, dirt and dead skin cells without drying. *Deep Pore* clears pores while cleansing the skin at the same time. Suitable for both men and women with normal to oily skin, congested, acne prone skin and darker skin tones. The Perfect cleanser to abolish blackheads and skin eruptions.

“ Cleansers should be the first step in removing debris, dead cells and pollutants from the skin without the irritating scrubs or “skin strippers”. DMK Cleansers have been formulated to address all skin conditions including aesthetic medical procedures. —Danné Montague-King

Deep Pore Pure

An herbal cleanser that is designed to flush embedded impurities from of the skin. Formulated with a natural astringent and antibacterial ingredients to thoroughly clean pores of dirt, oil and dead skin cells. *Deep Pore Pure* helps keep pores clear, tight, supple and young. Recommended for normal to oily skin.

Milk Cleanser

Formulated with our water soluble base with essential, herbal oils. *Milk Cleanser* is designed for fine, sensitive skin and is gentle to the most fragile skin types. It is a low pH balanced cleansing milk with White Oak Bark, Birch Bark, Yucca and Soybean Extracts for dry, delicate or sensitive skin.

Milky Clean & Pure

Milky Clean & Pure has the same basic properties as *Deep Pore Pure*, but with soothing and nourishing herbal extracts. It offers a gentle and soothing solution for a lipid dry, fragile and sensitive skin, and for people who prefer a milk texture.

Beta Gel

Immune-boosting serum formulated for acne, burns, sunburn, eczema, psoriasis, dermatitis, premature aging, sluggish skins, super sensitive skins and anyone who needs increased healing and skin regeneration. A unique serum packed with Vitamin C and the most potent beta-glucan extracted from yeasts' cell wall. *Beta Gel* solution can help reduce swelling, redness and inflammation allowing healthier skin cells to fight back. It can be applied directly on any skin condition.

Direct Delivery Vitamin C

Direct Delivery Vitamin C Serum is the sophisticated answer to assist in preventing and reversing the signs of biological and environmental aging. It is highly recommended for men and women of all ages and is suitable for aging, sun damage, fine lines, wrinkles, pigmentation and scarring. With 4 different types of Vitamin C, *Direct Delivery Vitamin C* is the most potent time released Vitamin C Serum available.

Super Serum

A superb combination of Beta-glucan and Vitamin C. *Super Serum* helps stimulate the langerhans cells of the immune system of the skin as well as stimulates the fibroblast cells to produce collagen and elastin. *Super Serum* will help reduce swelling, redness, inflammation pigmentation, fine lines and wrinkles. Beneficial for all skin types.

“ Serums are immediate, aqueous delivery without lipids or fillers so the concentration of the active ingredients penetrates the epidermis first, allowing a protective occlusion of DMK Crème's and lotions to slowly trans-nourish the skin all day long. DMK serums are a potent “kick” start to skin health and longevity. ”

120 ml (4 fl oz)

Acu-Mist

Acu-Mist contains aloe and plant extracts that help to normalize the skin's acid mantle specifically for acne prone and oily skin.

Aminodine

DMK's "golden water" *Aminodine* is an age management formulation which contains Aminoguanidine to help revise cross-linked wrinkles in mature, middle-aged and sun damaged skins. A Refreshing hydrating spray that soaks into the skin helping to reactivate glucose and normalize the free radical effect of glycation (reduces the ability of collagen fiber to regenerate leading to wrinkling, creping and sagging of the skin).

Herb & Mineral

Herb & Mineral Mist contains over 98% cold water soaked herbs that can act systemically as well as have a direct effect on the skin. *Herb & Mineral* Mist is a polarized spray which aids in transepidermal delivery, infusing a multitude of vitamins, minerals, trace elements and water. This could be thought of as the "vehicle" that carries the nutrients.

“ The misnomer “moisturizer” was created by a Madison Avenue advertising Firm in 1962 to sell beauty crèmes. The only real moisturizer is water, not crème based. The 3 DMK moisture mists are all designed to create half the natural acid mantle while offering different healing aspects for different conditions. ” —Danné Montague-King

Herbal Pigment

Herbal Pigment oil is a rich, delicate herbal oil that is designed to reduce the signs of hyperpigmentation. It is good for dark circles and fine lines around the eyes and any dark areas around the elbows, knees and even dry lips. *Herbal Pigment* oil nourishes and strengthens while it lightens and brightens. It can be used in combination with *Melanotech Crème* or other DMK products.

Seba-E

Described as velvet radiance in a bottle, *Seba-E* is a fractionated blend of herbal oils and Vitamin E sealing in moisture helping combat dryness, lipid dry skin, dehydration and skin suffering from transepidermal water loss. (TEWL) When used with *Herb & Mineral Mist*, *Seba-E* will re-establish the protective acid mantle and promote barrier repair by replicating the natural way skin secretes oil.

“ All DMK oils are fractionated to piggy-back onto the water molecule and provide the second half of our natural acid mantle, with the exception of Herbal Pigmentation Oil which is a suspended massage-in oil for maximum tissue softening and brightening . ”

ACU CRÈME
MOISTURE CREAM
FOR OILY SKIN
50 ml

Acu Crème

Acu Crème is designed for normal to oily skin, acne skin or for people who have a high cell turnover. *Acu Crème* is formulated with ingredients that serve as a non-greasy moisturizer, helping to clear and prevent acne whilst aiding the skin to heal.

Acu-Moist

Acu-Moist is a gentle moisturizing lotion ideally suited for anyone experiencing over drying caused by acne treatments or anyone looking for a non-oily, light moisturizer. Helps protect against UVA and UVB rays which are particularly damaging to skin being treated for acne.

Betagen

Betagen crème is designed to enhance the skin's immune system and is often described as an "emergency crème" for reactive, irritated or inflamed skin due to its calming and soothing effect. Good for premature aging, sun damaged skin, eczema, psoriasis and sluggish skin. Contains powerful antioxidants that can assist the healing process while reversing the visible signs and effects of aging.

Biogen C

Biogen C is a "beauty in a flash" crème designed to pick up tired and stressed skin. *Biogen C* aims to stimulate, tone and tighten dull stressed skin. Improves tissue oxygenation and strengthens weakened capillaries. Instantly hydrates the skin and helps smooth the appearance of fine lines and wrinkles.

“ In the late 1970's when our brand was DANNE™ we had a product called Skin Food. Since then all DMK Crèmes are created around the concept that the cells only respond to nutrients they recognize as part of the human body's natural blue print. In other words "food that the cells need to stay alive longer" ” —Danné Montague-King

Crème Citrique

A unique formulation for oily skin that is designed to not only maintain the skin's pH balance and regulate oil flow but to help inhibit pigmentation. Compounded with fermented orange peel, the crème's gentle citric action brightens, lightens and tones the skin. It can provide super hydration while normalizing oily skin. *Crème Citrique* is good for deeper pigmented and oily skins. It also helps decrease TEWL (Transepidermal Water Loss).

Nite Firming

Specialized crème that is designed to help repair and fight the signs of aging. Using a multitude of active ingredients, essential fatty acids, vitamins, and super antioxidants, *Nite Firming* crème can penetrate deep into the skin assisting natural collagen production and restoring a more youthful looking appearance. May be applied around the eye area and is suitable for use on the neck, décolleté and jowls.

NutraScreen

The ultimate skin food. *NutraScreen* is a water resistant nourishing crème, providing broad spectrum UVA and UVB screening with high protection SPF 30. Protects skin and cell integrity against toxic chemicals. Forms a biomimetic shield against pollution and smog. Contains amino acids, proteins, antioxidants, and key ingredients such as Zinc Oxide, Cyclohexasiloxane, and Phosphatidylcholine. *NutraScreen* is great for daily use. No grease, no heavy feeling and works with DMK Skin Revision, DMK Limited and DMK Cosmetics products.

Pro Amino

A nutrient crème for neutral skin types, *Pro Amino* crème contains eight essential amino acids necessary for the life of a skin cell. It helps maintain the skin's pH balance while promoting the tightening and toning of tissue. This formulation contains lipids that provide deep natural moisture and one of the most powerful,

Melanotech Crème

Recommended for those concerned with uneven skin tone and pigmentation. Formulated with herbal extracts to help revise hyper-pigmentation, even out skin tone and brighten the skin.

Revise-A

Designed for skin on a maintenance program. This light exfoliating product aims to maintain cellular renewal and encourage a healthy, youthful complexion when used several times times a week. The key function of *Revise-A* is to strengthen skin tissues through the regulation of cell proliferation.

Revitosin

DMK's signature skin revision formulation. *Revitosin* contains a blend of Vitamin A derivatives aimed to regulate cellular turnover and encourage healthy skin. It is recommended for those who suffer from premature aging, acne, pigmentation, scarring and clients undergoing a professional skin revision program.

Super Bright

A revolutionary blend of botanical ingredients working on the superior science of conversion. *Super Bright* provides the benefits of lightening by targeting pigmentation without the side effects of harmful toxins and does not make you more photo sensitive. Suitable for hyperpigmentation, dark, dull or sun damaged skins.

Eye Tone

Works on the principle of encouraging the skin to function as it did when it was younger. *Eye Tone* plumps up the skin and rebuilds the fragile skin around the eye and neck area by promoting normal cellular proliferation, strengthens fragile capillaries reducing dark circles. It revises wrinkles and fine lines, dark circles and puffy bags while hydrating and softening the skin blood supply to the wounded area.

“ The tissue around the eyes is quite strong and not as fragile as people believe, ask any plastic surgeon. However the availability of sudoriferous and sebaceous secretions are less to the eye area as well as circulatory systems. DMK created special tools for all common eye problems that are so effective you will not believe your eyes! ”
—Danné Montague-King

Fine Line

A rich nourishing crème designed to target the eyes, neck, top lip and areas of fine lines, and wrinkles. Revises and strengthens skin with a rich blend of skin identical lipids that provide the skin with amino acids, proteins, vitamins, minerals and natural moisturizing factors. Helps to revise fine lines and stubborn crepe-like areas of the face and neck.

“ The skin on the neck is thinner than the facial skin but is draped differently over muscle and has a copious network of capillaries. Almost all the DMK nutrient crèmes work on the neck as well as our serums. ”
—Danné Montague-King

Hydroloc

A rich creme designed to hydrate and lock moisture into extremely dry, and scaly skin. *Hydroloc* crème is a powerful lubricant whose natural sealants grab moisture and penetrate deep into the tissues increasing the skin's moisture. It is an excellent barrier repair crème for supreme hydration protecting the skin from transepidermal water loss (TEWL).

DMK Sunscreen SPF 30

DMK's signature sunscreen protects skin from damaging UVA and UVB rays that contribute to premature aging and pigmentation. *DMK Sunscreen* is formulated with a water resistant base that is light, non-greasy and is perfect for acne, oily skin as well as dry, dehydrated mature skin. It can be used over all DMK products and effectively under make-up.

Solar Damage

Soothes skin inflammation and redness. Restores the interstitial fluid of the epidermis bringing hydration and vitality back, creating a firmer plumper more replenished skin. *Solar Damage* gel has specific barrier protection effects, helping to protect and adds rich Aloe and Vitamin E which aids collagen rejuvenation.

Enbioment™ Cleanser

Microbiome System – Probiotic Balancing Cleanser. DMK Enbioment™ Cleanser, this pH neutral cleanser effectively cleanses the skin and acts as a prebiotic to help remove excess colonies of bad bacteria without stripping the skin of all its good bacteria. This provides the proper environment for establishing and maintaining a healthy microbiome.

Enbioment™ Mist

Microbiome System – Probiotic Delivery Spray. DMK Enbioment™ Mist, this conditioning spray acts as a prebiotic to establish the proper environment and provide the nutrients necessary to rebuild good bacteria found in a healthy skin.

Enbioment™ Serum

Microbiome System – Probiotic Restoring Emulsion. DMK Enbioment™ Serum, this probiotic emulsion, reintroduces healthy bacteria and encourages the reestablishment of existing healthy bacteria essential to maintaining skin health. By rebalancing the microbiome of the skin, we help insure the skin's immune and mechanical barrier functions are performing optimally.

“ I truly believe that with our Enbioment™ System, we have pioneered once again in the skincare industry. ”
—Danné Montague-King

Maximum Moisture

A deep-penetrating body moisturizer, *Maximum Moisture* body lotion is a blend of ingredients that will not clog pores or leave a greasy film on the skin. Derived from the pulp of an avocado, this product is excellent for dry, cracked hands or extending tans after sun exposure. When used in conjunction with the *Hydra Louffa*, it is an effective therapeutic body treatment for very dry skin.

Body Sculpting

Body Sculpting crème is a contouring and tightening topical treatment creme. Designed to help reshape the body in stubborn areas, reduce the appearance of cellulite by smoothing and firming loose body skin. Note: Not for use by diabetics or pregnant women.

Hydra Louffa

A non-granular body gel designed to cleanse the skin and exfoliate dead skin cells. It is an excellent exfoliation formulation for dry skin, reactive skin and skin suffering from folliculities. Used daily at home or in conjunction with DMK Body Treatments.

“ Body skin is thicker than the face in most areas except the chest. Hydra Louffa, Maximum Moisture and Body Sculpting crèmes are deep transepidermal formula’s designed to maintain the DMK Spa Body Sculpting and tightening treatments indefinitely. ” —Danné Montague-King

Acu-Klear

Acu-Klear uses salicylic acid to kill acne bacteria and dry up active acne. However, it goes much further with its sophisticated combination of herbal extracts and ingredients which are anti-inflammatory, anti-bacterial, anti-oxidant and free radical scavengers. These natural ingredients are combined into a simple treatment lotion that provides faster acting relief from acne and clearer-looking skin in just days.

Acu-Therm

Acu-Therm addresses those swollen impacted pores that feel like cysts beneath the skin. This unique salve-like gel is full of herbal oils and extracts that create pseudo heat to help “melt” away the waxy plug responsible for the backup. In doing so, fluids begin to flow naturally, avoiding the conditions conducive for acne bacteria to thrive.

Actrol Powder

An antibacterial powder specifically formulated to reduce excess sebaceous oil flow whilst assisting in the clearing of acne. *Actrol Powder* absorbs oil without dehydrating the skin. Suitable for sensitive, oily and acne prone skins.

Calerase

A hand and foot crème designed for callused, dry and cracked skin. *Calerase* crème maintains smooth skin on the feet between MediPedi® Treatments. Its strong desquamating properties minimize dry and dead skin, can be used on the feet and hands as a cuticle crème.

Benzoyl Peroxide BP-5, BP-10

BP lotion (Benzoyl Peroxide) has been proven effective for more than 20 years in the treatment of acne. *BP lotion (Benzoyl Peroxide)* uses the same 'miracle' ingredient as the acne wash but in a much more concentrated dose. This is a serious solution designed purely as a corrective tool that clients can use at home to control and stop the acne condition.

Contraderm

Contraderm is an anti-trauma formula that can be used for minor skin irritations and itching due to eczema, dermatitis or professional skin revision treatments. *Contraderm* is frequently recommended for skins that have undergone surgical procedures or advanced skin revision.

Epitoxyl

A deep cleansing liquid, designed to remove toxins and free radicals causing pollutants from the skin. Although *Epitoxyl* is relatively odourless, strong odours may be present when applied to extremely toxic skin, odour will disappear with rinsing.

Melanotech Drops

A potent formula that contains melanin inhibitors and antioxidants. Helps prevent pigmentation while revising uneven skin tone, dark spots and pigmentation. This is a must have tool for all hyperpigmentation treatments.

Pore Reduction Plus

Pore Reduction Plus is designed to visibly reduce pores without stripping the skin of natural oils or causing an increase in oil production. The solution helps to clear the pores and allows them to refine naturally minimizing the appearance of open pores. Suitable for acne, congested skin, reactive and inflamed skin.

Red Vein

Assists in the revision of broken capillaries and swollen veins, by aiding to flush out stagnation and strengthen capillary walls. Plant-based active ingredients stimulate the blood flow in order to flush capillaries and strengthen capillary walls. This action visibly reduces permanent and intermittent redness and vascular matting.

Acu Masque

Ideal for oily skins prone to blemishes, *Acu Masque* is a diverse and versatile masque that aims to fight acne-causing bacteria, purify the skin, soothe and reduce redness, and inflammation. It also purifies ducts which are plugged by dead cells and sebum, and prevents pimple eruptions, while acting as an astringent on enlarged pores.

Exoderma Peel

A natural exfoliating formula from the sea that helps remove dead, dry skin cells. *Exoderma Peel* provides a quick pick-up and skin tightening treatment suitable for mature, sensitive skins. Mix with *Foamy Lift* enzyme masque for a deeper exfoliating treatment.

Foamy Lift

Foamy Lift enzyme masque is created to gently exfoliate the skin. Formulated with natural enzymes, proteins and ribonucleic acid (RNA) active ingredients. *Foamy Lift* enzyme masque is water soluble and tightens and tones the skin helping alleviate dead skin cells and impurities by reverse osmosis. It is used in combination with *Exoderma Peel* to create a rejuvenated appearance.

Hydrating Masque

Provides supreme hydration by helping restore the interstitial liquid (liquid between the tissues) of the epidermis. It helps prevent premature aging, wrinkles and fine lines by fighting off the damaging effects of free radicals.

Micro Peel

Offers a quick and non-irritating method of removing dead cells and debris to improve the appearance of dull, coarse or wrinkled skin. *Micro Peel* is a gentle exfoliant to eliminate dead cell material ideal for acne and congested skin. This is the perfect at home “preparing the canvas” treatment before applying DMK Cosmetics.

EFA+

The DMK *EFA+* supplements are a powerful group of essential fatty acids 3,6,7 and 9 derived from Evening Primrose and Seabuckthorn Oil. *EFA*'s are required for the structure of all membranes in the body. *EFA*'s "waterproof" the skin, maintaining the barrier of the skin impermeable. The skins primary function is to protect internal organs and skeleton from exterior attack. DMK *EFA+* only uses the purest raw materials that are compounded in the USA with our FDA registered lab.

DMK *EFA+* are designed for a wide variety of skin conditions with the aim of repairing the cell membranes and helping to rebuild a stronger healthier and better functioning skin. DMK *EFA+* are formulated to aid in the improvement of barrier function and transdermal water loss. It is particularly useful for acne, inflamed or reactive skin, pigmentation, fine lines, wrinkles and aging skins. Also recommended for clients undergoing professional skin revision treatments.

Consult your doctor before using DMK *EFA+* if you are pregnant or nursing. This Essential Fatty Acid supplement should not replace a balanced diet. Only used as directed.

“ Although not in the vitamin and supplement field, I discovered a blend of botanics years ago that actually helped to increase the matrix inside the skin that keeps the skins bounce and turgidity firm. This is vital in areas that cannot be addressed topically and helps combat inflammation and stimulates nail and hair growth. ” —Danné Montague-King
